Purpose:

The Wasatch Front Waste and Recycling District (WFWRD) currently provides waste services to the area of Murray east of 900 East. Murray City has received numerous requests and is considering taking over the waste services in this portion of the City serviced by WFWRD. This open house was an opportunity to provide information to citizens regarding a comparison of services and allow elected officials the opportunity to receive input from residents of this area on this issue.

Minutes:

No formal meeting was held. The open house was well attended and residents, elected officials, and City staff members shared information informally regarding the proposed change to waste services. Two stations contained the maps and a comparison of services (attached). Residents were given the opportunity to fill out a short survey designed for the City to judge the desires of the residents.

The open house concluded at 7:30 p.m.

Janet M. Lopez
Council Administrator
