

Murray Historic Sites Register

Updated September 2020

Lower case letters indicate the building’s designation is part of a National Registry District. An upper case letter indicates the building was considered individually for the local registry. The Downtown Historic Residential District and the Downtown Business District are on the National Register and automatically included on the local register. Some sites which could be listed as 'c' sites based on architectural elements alone have been designated as 'b' sites because of their historic significance to the city. A lower case letter in parenthesis notes The designation differs between local and state designations. Please phone 264-2620 for further information.

The process to list the Murray Local Register with photos on the Murray City website has been financed in part with Federal funds from the National Park Service, U.S. Department of the Interior, and administered by the State Historic, Preservation Office of Utah. The contents and opinions do not necessarily reflect the views or policies of the Department of the Interior or the Utah State Historic Preservation Office, nor does the mention of trade names or commercial products constitute endorsement or recommendation by the Department of the Interior or the Utah State Historic Preservation Office.

This program receives Federal financial assistance for identification and protection of historic properties. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, as amended, the U.S. Department of the Interior prohibits discrimination on the basis of race, color, national origin, disability or age in its federally assisted programs. If you believe you have been discriminated against in any program, activity, or facility as described above, or if you desire further information, please write to: Office for Equal Opportunity, National Park Service, 849 C Street NW, Washington, D.C. 20240.
