

Autumn Brilliance Serviceberry

Description	Bursting with white flowers in the springtime, this small tree will fit into any sized landscape. It is grown either in a single stem tree or a multiple stemmed large shrub which is suitable for accent planting or privacy screening. The oval shaped leaves emerge coppery-red, becoming rich green throughout the growing season. Produces sweet purplish-black fruit which is promptly taken by the birds. The fall color is dramatic and outstanding! The bark is smooth and light gray. Hardy to -40°F Maximum Elevation: 8,500 ft.

Mature Height	50-60 Feet
Mature Width	40-50 Feet
Name	Common Hackberry

Greenspire Linden

Description	A very reliable shade tree, even for difficult conditions. Tolerates a very wide range of soil condition. Linden trees have very flexible wood making them an excellent choice for open windy areas. Not bothered by most common tree pests. Fairly fast growing. Slender, upturned branches create a dense, uniform crown with a conical outline. Tiny, yellow, fragrant flowers appear in early summer and small, heart-shaped, green leaves turn yellow in fall. EASY TO GROW! Hardy to -40°F Maximum Elevation: 7,000 ft.
Deciduous Tree Type	Shade Tree
Tree Habit	Round
Mature Size (generic)	TREE (30-50' Tall) • Average Width
