### 13.08.025: NEW CONSTRUCTION WATER METER AND AMI EQUIPMENT FEE SCHEDULE:

All new-construction water users must purchase from the City new water meters and advanced metering infrastructure (AMI) equipment for their new construction projects that are compatible with the City's metering system. The purchase price for the new meters and AMI equipment shall only cover the City's costs of the initial purchase of the equipment. The City's Public Works Director shall establish and maintain an up-to-date fee schedule of the current market costs of the equipment as well as records of the City's costs to purchase the new equipment. A copy of the fee schedule shall be on file in the office of the Public Works Director.
