

REQUEST FOR NOMINATIONS

42nd Annual Jim & Jean Hendrickson Beautification Award

The Murray City Shade & Beautification Commission and Murray City Power's Forestry Division are pleased to announce the 42nd Annual Jim & Jean Hendrickson Beautification Awards Program. Each year this program acknowledges attractive, well-maintained landscapes in our community. The Commission invites all residential and commercial property owners and renters to participate in this citywide endeavor. Nominate yourself, a neighbor, or a local business whose landscaping you admire. We are proud that Murray is recognized as one of the most beautiful and well-kept cities in Utah.

HOW THE PROGRAM WORKS

There are two types of landscape projects, the traditional landscape of grass and trees and the water efficient type landscape called xeriscape. The judging will be done by teams of volunteer Murray citizens. Judging will be of front yards only. A winner will be selected in each City Council voting district for "District Award". Citywide awards and a Mayor's Award will also be given. As of 2023 you can nominate a park strip that is water wise and uses plants in the design (trees are strongly preferred). Entries must be submitted by June 10th. Entries may also be submitted online at murray.utah.gov. For additional information, call Murray City Power at 801-264-2730.

**Sponsored by Murray City Power and the
