

8. Excavation Spoil Envelope and Policy

Operation or Site Condition: Excavation spoil must be limited. It is necessary to clearly define and mark the excavation spoil envelope. **Spoil piles must not encroach in city right-a-way without an approved encroachment permit through the Murray City Engineering Department.**

Instruction: Excavator, maintain spoil within designated envelop shown on site map. Any spoil that does not fit inside the envelope must hauled off as excavated. **Not following excavation spoil procedures or contribute to sediment in the street or public right-a-way unnecessarily is subject to project shut down and or fines.**

Applicable Trades: Primarily the Excavator
